

PCN-101

Dear Valued Powercast Customer,

Powercast has revised the part P1110 to no longer include the plastic lid. The part has been revised from “Rev B” to “Rev C”. The Rev C parts are also packaged individually in static bags from Powercast.

There are no functional differences to the P1110 Rev C module, only that there is no longer a plastic lid. The operation of the Rev C module is identical to the Rev B module.

If you have any other questions please contact Powercast at contact@powercastco.com, or by calling (412) 455-5800

Thank you,

Powercast Support Team
